Subject: Soil Vapor Investigation Area 40 - Draft Locations
Attachments: area40soilvapor.pdf

Lynn:

I put proposed soil vapor sample locations on Aerojet's contour map. They are in yellow for new locations and red for existing VWs to sample. The north samples are shown on the 10-20 foot map (far right) and the south samples on the less than 10 foot figure (middle). Assumed that everything over the 5 µg/L groundwater plume has unacceptable soil vapor levels.
